### **PORCELAIN PAVERS | 2.0**

#### **20MM THICKNESS**

Designing outdoor spaces, if done correctly, can give an elegant uplift to your abode and make it look more spacious and stylish. Installations done after proper planning can set your outdoor space apart from the rest and make it look absolutely stunning! These tiles are immune to harsh weather conditions and have a high physical strength. We aim to provide you with a lavish and spectacular patio.

## Available Size

To produce great tiles, we have to have great infrastructure. As such, it frames the base of our entire unit of production. So we make sure that we house only the best of the elements and resources, so that we can deliver what we promise, and that is peerless products. Our entire infrastructure set up is designed considering the convenience of the workers and also protection of the products. We have apparatus, machineries and other necessary tools placed in a specified order. Besides, our love for nature is prominent, hence being eco-friendly is our habit. The set thus promotes recycling and minimum wastage.

resistance

Resistant  
to abrasion

Resistant  
to staining

Resistant  
to blemishes

Resistant to  
deep scratches

Easy  
to install

## PORCELAIN PAVERS | 2.0

### 20MM THICKNESS

With their practical, non-slip surface and incredible strength, 20 mm porcelain slabs have become the ideal laying solution for heavy traffic commercial areas and external applications. 100% frostresistant and suitable for sub-zero temperatures means that these tiles can be used for driveways and walkways, as well as for swimming pools surrounds and hard landscaping. They are also entirely resistant to stains, mould and moss, meaning their finish will remain as beautiful as the day it was laid.

Add A Calm  
Element Through Decor
